Harbin Electric Company Limited (the “ ”) was initially and was formed through the restructuring of Harbin Electric Corporation (“ ”) and its three affiliates: Harbin Electrical Machinery Works, Harbin Boiler Works and Harbin Turbine Works. The Company was established in Harbin on October 6, 1994. The reconstruction and listing of its shares in Hong Kong with limited liabilities has been approved by the State Commission for Restructuring the Economic Systems on November 5, 1994.

Parent and ultimate controller of the Company: Harbin Electric Corporation

The Company is engaged in manufacturing of power generator and generator units, its principal businesses are production and sales of power generator and turn-key construction of power station projects.

Unless the financial instruments are measured at fair value, the consolidated financial statements are measured by historical cost method.

The accounting policies and calculation methods adopted in the consolidated financial statements as at 30 June 2021 are in line with the compilation of the annual financial statements of the Company for the year ended 31st December, 2020.

)

The company confirmed six reports' division which was based on inter-corporation structure and corporate governance as following: Thermal power host equipment division, hydropower stations in the host equipment division, engineering services division, power plant auxiliary and supporting products, nuclear power products division, ac/dc motor and others. The individual report of the company offers the different products and services, or operating activities in different area. Due to different divisions need different technique and market strategy, the company's managements report the operating activities of every division respectively and evaluate the operating outcomes regularly to decide how to allocate the resources and evaluate its performance.

The transfer price of divisions should decide by the actual price and the indirectly expenses of divisions should allocate by ratios. The assets should allocate by the operating of the divisions and its locations. The liabilities of divisions include the liabilities which related to the operating activities of the divisions. If several divisions bear the related expenses together, the divisions bear the liabilities together.

)

According to the relevant provisions of the “Enterprise Income Tax Law”, high-tech enterprises that are supported by the state are subject to a corporate income tax rate of 15%.

On 7 August, 2020, the Company obtained the High and New Technology Enterprise certificate (Number: GR202023000278) jointly issued by the Heilongjiang Science and Technology Bureau (黑龍江省科學技術廳), Heilongjiang Finance Bureau (黑龍江省財政廳), Heilongjiang State Tax Bureau(黑龍江省國家稅務局), and Heilongjiang Local Tax Bureau(黑龍江省地方稅務局), for an effective period of three years, pursuant to which enterprise income tax will be charged at the rate of 15% during the period.

Except for certain subsidiaries enjoying a corporate income tax rate of 15% (six months ended June 30, 2021: 15%), other subsidiaries located in China should be subject to a corporate income tax rate of 25% (the six months ended June 30, 2021: 25%) Chinese corporate income tax is paid.

)

The Company did not earn any income subject to Hong Kong Profits Tax from January to June 2021. Therefore, no provision for Hong Kong Profits Tax has been made.

)

In accordance with the Circular of the State Administration of Taxation on the issue of the payment of corporate income tax on dividends paid by the Chinese resident enterprises to the shareholders of non-resident enterprises of overseas H shares on 6 November 2008 [2008] No. 897 issued by the State Administration of Taxation. The Chinese resident enterprises shall pay the enterprise income tax at the rate of 10% of the annual dividend of the H-share non-resident enterprise shareholders. Accordingly, the Company shall pay the enterprise income tax at the rate of 10% of the annual dividend of H shares non-resident enterprise shareholders.

The credit period for which the customer is authorized is different, generally depending on the financial strength of individual customers. For the effective management of the credit risk associated with accounts receivable, the Company conducts an assessment of customer credit on a regular basis.

In the first half of 2021, in the face of the complex and ever-changing domestic and foreign environment, China's economy continued to stabilize and recover with steadily increasing momentum. The transformation to clean and low-carbon energy has been accelerated, and the renewable energy installed capacity has been steadily expanding. As of the end of June 2021, the total installed capacity of power generation in China was 2.257 billion kilowatts, representing a year-on-year increase of 9.5%, of which the installed power generation capacity of hydropower power, nuclear power, wind power and solar power accounted for 43.9% of the total electricity installed capacity, representing an increase of 2.9 percentage points over the same period of last year. In the first half of 2021, China's installed power generation capacity increased by 51.87 million kilowatts, representing an increase of 14.92 million kilowatts over the same period of last year, of which hydropower increased by 8.12 million kilowatts, representing an increase of 4.0 million kilowatts over the same period of last year, thermal power increased by 17.57 million kilowatts, representing an increase of 1.25 million kilowatts over the same period of last year, nuclear power increased by 2.27 million kilowatts, representing an increase of 2.27 million kilowatts over the same period of last year, wind power increased by 10.84 million kilowatts, representing an increase of 4.52 million kilowatts over the same period of last year, and solar power increased by 13.01 million kilowatts, representing an increase of 2.86 million kilowatts over the same period of last year.

In the first half of 2021, the Company, with joint efforts of all staff members, took reform and innovation as the driving force to promote high-quality development with all efforts. We made positive progress in various tasks, and the economy operated steadily and main economic index meet expected by and large.

For the six months ended 30 June 2021, the Company recorded an operating revenue of RMB11,807.33 million, representing an increase of 22.82% as compared with the same period last year. The Company recorded a net profit attributable to owners of the parent company of RMB34.47 million, representing an increase of 18.19% as compared with the same period last year. Earnings per share were RMB0.02, basically equivalent to that of the same period last year. The Company's total equity attributable to the owners of the parent company at the end of the period was RMB15,651.05 million, representing a decrease of RMB26.16 million over the beginning of the year; and net assets per share were RMB9.17, representing a decrease of RMB0.02 over the beginning of the year. The decrease in net assets per share was due to the change in the fair value of other equity instruments and change in cash-flow hedges reserve.

For the six months ended 30 June 2021, the value of formal contracts secured by the Company amounted to RMB8.953 billion, representing an increase of 1.58% from the same period last year, and to which the coal power equipment contributed RMB3.849 billion, accounting for 43.00% of the total amount, representing a year-on-year decrease of 31.98%; the formal contract amount for hydropower equipment amounted to RMB1.688 billion, accounting for 18.85% of the total amount, representing a year-on-year increase of 234.69%; the formal contract amount for nuclear power equipment amounted to RMB0.119 billion, accounting for 1.33% of the total amount, representing a year-on-year decrease of 67.67%; the formal contract amount for power station service amounted to RMB1.540 billion, accounting for 17.20% of the total amount, representing a year-on-year increase of 28.93%; and the formal contract amount for other products amounted to RMB1.757 billion, accounting for 19.62% of the total amount, representing a year-on-year increase of 61.42%.

In the first half of 2021, the value of export contracts secured by the Company amounted to RMB0.436 billion, representing a decrease of 12.81% from the same period last year.

The capacity of the Company's power equipment produced during the six months ended 30 June 2021 was 10,635 MW, representing an increase of 5.2% as compared with the same period last year, and among which water turbine generators sets generated a total of 4,900 MW, representing an increase of 20.6% as compared with the same period last year; steam turbine generators generated a total of 5,735 MW, representing a decrease of 5.0% as compared with the same period last year; utility boilers for power stations generated a total of 8,696 MW, representing an increase of 35.2% as compared with the same period last year, and steam turbines for power stations generated a total of 2,090 MW, representing a decrease of 65.3% as compared with the same period last year.

For the six months ended 30 June 2021, the Company recorded an operating revenue of RMB11,807.33 million, representing an increase of 22.82% as compared with the same period last year. In particular, operating revenue of main thermal power equipment was RMB4,436.52 million, representing an increase of 36.72% as compared with the same period last year. Operating revenue of nuclear power equipment was RMB605.75 million, representing a decrease of 24.36% as compared with the same period last year. Operating revenue of main hydropower equipment was RMB1,235.52 million, representing an increase of 16.00% as compared with the same period last year. Operating revenue of engineering services for power stations was RMB3,073.90 million, representing an increase of 13.16% as compared with the same period last

year. Operating revenue of ancillary equipment and supporting products for power stations was RMB407.53 million, representing an increase of 17.82% as compared with the same period last year. Operating revenue of AC/DC motors and other products and services was RMB2,048.11 million, representing an increase of 42.16% as compared with the same period last year. During the period, the increase in the operating revenue of the Company was mainly attributable to the change of production schedule structure in the first half of the year.

During the period, the Company recorded an export turnover of RMB2,919.58 million, accounting for 24.73% of the operating revenue. The exports were mainly to Asia, accounting for 24.36% of the operating revenue and 98.69% of the export turnover.

During the period, the operating cost of the Company was RMB10,549.64 million, representing an increase of 26.39% as compared with the same period last year, which was mainly attributable to the increase in the scale of operating revenue.

For the six months ended 30 June 2021, the Company realized a gross profit from operating business of RMB1,257.69 million, representing a decrease of 0.74% as compared with the same period last year. The gross profit margin was 10.65%, representing a decrease of 2.53 percentage points as compared with the same period last year.

In particular, the gross profit from main thermal power equipment was RMB474.76 million and the gross profit margin was 10.70%, representing a decrease of 2.67 percentage points as compared with the same period last year; the gross profit from nuclear power equipment was RMB193.75 million and the gross profit margin was 31.99%, representing an increase of 15.70 percentage points as compared with the same period last year; the gross profit from main hydropower equipment was RMB201.16 million and the gross profit margin was 16.28%, representing a decrease of 6.42 percentage points as compared with the same period last year; the gross profit from engineering services for power stations was RMB-16.73 million and the gross profit margin was -0.54%, representing a decrease of 4.41 percentage points as compared with the same period last year; the gross profit from ancillary equipment and supporting products for power stations was RMB23.07 million and the gross profit margin was 5.66%, representing a decrease of 11.42 percentage points as compared with the same period last year; and the gross profit from AC/DC motors and other products and services was RMB381.68 million and the gross profit margin was 18.64%, representing a decrease of 1.96 percentage points as compared with the same period last year.

The Company's gross profit margin slightly decreased, mainly due to the decrease in the gross profit of the thermal power segment arising from the fluctuation of exchange rate.

For the six months ended 30 June 2021, the Company incurred expenses for the current period of RMB1,042.56 million, representing an increase of RMB18.08 million or 1.77% as compared with the same period last year. In particular, distribution expenses amounted to RMB228.80 million, representing an increase of 26.64 million or 13.18% as compared with the same period last year; administrative expenses incurred amounted to RMB520.94 million, representing an increase of RMB78.87 million or 17.84% as compared with the same period last year; R&D expenses incurred amounted to RMB280.90 million, representing an increase of RMB80,000 or 0.03% as compared with the same period last year; financial costs incurred amounted to RMB11.93 million, representing a decrease of RMB87.51 million or 88.01% as compared with the same period last year.

The increase in expenses for the period was mainly attributable to the increase in administrative expenses as compared with the same period last year arising from the cancellation of relevant preferential policies during the pandemic with the control of the pandemic situation in 2021.

As at 30 June 2021, the total assets of the Company amounted to RMB59,984.72 million, representing an increase of RMB2,023.47 million or 3.49% over the beginning of the period, among which the current assets were RMB50,489.69 million, accounting for 84.71% of the total assets, and the non-current assets were RMB9,495.03 million, accounting for 15.83% of the total assets. The total liabilities of the Company amounted to RMB43,741.27 million, representing an increase of RMB1,980.07 million or 4.74% over the beginning of the period, among which the current liabilities were RMB40,059.51 million, accounting for 91.58% of the total liabilities, and the non-current liabilities were RMB3,681.76 million, accounting for 8.42% of the total liabilities. As at 30 June 2021, the gearing ratio of the Company was 72.92% as compared to 72.05% at the beginning of the period.

As at 30 June 2021, the gearing ratio of the Company (calculated as non-current liabilities over total shareholders' equity) was 0.24:1 as compared to 0.21:1 at the beginning of the period.

As at 30 June 2021, the monetary capital of the Company was RMB11,794.30 million, representing a decrease of RMB454.41 million or 3.71% as compared to the beginning of the period, primarily attributable to relatively high expenses on purchasing arising from the measures such as bundled bidding and centralized procurement taken to

control risks under the background of continuous increasing of raw material prices in the first half of the year. During the period, the negative net cash flow generated from operating activities of the Company was RMB-1,276.41 million, while investing activities generated net cash flow of RMB1,110 million and financing activities generated negative net cash flow of RMB-196.31 million.

The Company currently has four funding sources for operation and development, namely shareholder's funds, trade receivables from customers, bank borrowings and entrusted loan of national funds. The Company arranges borrowings for each specific project. Except for some special situations, loans will be raised individually by the Company's subsidiaries. However, prior approval from the parent company is required in respect of borrowings raised for capital investments. As at 30 June 2021, the Company's total borrowings amounted to RMB7,324.37 million, all of which were made by various commercial banks, the state's policy banks at loan prime rate and entrusted loan of national funds. Among the borrowings, the amount due within one year was RMB5,122.03 million, representing a decrease of RMB18.57 million over the beginning of the period; the amount due after one year was RMB2,202.34 million, representing an increase of RMB317.56 million over the beginning of the period. As of 30 June 2021, the Company's contracted liabilities were RMB13,175.23 million, representing an increase of RMB1,157.67 million from that at the beginning of the period.

For the six months ended 30 June 2021, the Group had made fixed assets investments of RMB174.45 million, which were mainly utilized for investment in technical measures and technical transformation for maintaining the normal production and operation of Dehui biomass electricity and heat cogeneration project, Wangkui biomass electricity and heat cogeneration project and the affiliated enterprises.

On 9 April 2021, Boiler Company, a wholly-owned subsidiary of the Company, entered into the Investment Agreement of Zesheng Environmental Protection Company, pursuant to which Boiler Company agreed to provide capital of RMB120 million to Zesheng Environmental Protection Company by way of cash. Boiler Company holds 50.42% equity interests in Zesheng Environmental Protection Company. Zesheng Environmental Protection Company becomes a subsidiary of Boiler Company.

There is no significant change in the 2021 investment plan.

Save as disclosed above, the Company did not have any other major investment, significant acquisition or disposal of subsidiaries, or approve any other major investment or plan on acquisition of capital assets during the period.

The export business and the businesses settled in foreign currencies and all deposits denominated in foreign currencies of the Company are exposed to exchange risk. As at 30 June 2021, the Company's deposits denominated in foreign currencies were equivalent to approximately RMB1,165.49 million. To avoid the risk of exchange rate fluctuation in the foreign exchange market, the Company has signed contracts of Forward FX sales and purchase with banks for some future foreign currency receivables of overseas projects.

As of 30 June 2021, the funds raised by the Company's domestic share subscription in 2017 (the “ ”) remained unused at RMB185 million. All the funds raised from the issuance of shares and bonds in the previous years had been fully used. During the reporting period, the Company had no raised funds.

The use of the Funds is as follows:

	<i>(RMB '00 million)</i>	<i>(RMB '00 million)</i>	<i>(RMB '00 million)</i>

According to the provisions of Administrative Measures with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理辦法》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration for Taxation of the PRC on 14 April 2008 and the Administrative Guidance with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理工作指引》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation on 8 July 2008, corporations including the Company and five of its subsidiaries, namely Harbin Electrical Machinery Company Limited, Harbin Boiler Company Limited, Harbin Turbine Company Limited, Harbin Electric Power Equipment Company Limited and HE Harbin Power Plant Valve Company Limited were entitled to a 15% preferential income tax rate.

In accordance with regulations of the State Administration of Taxation, the average rate for tax rebate applicable to the Company's new export products contracts is 13% with effect from 15 October 2003.

Pursuant to the Implementation Measures of the Provisional Regulations of the PRC on Value-added Tax (《中華人民共和國增值稅暫行條例實施細則》), the Company is included in the general framework of the value-added tax system reform, which allows the Group to deduct the value-added tax incurred for the purchase of equipment.

Under the Opinions of Central Committee of the Communist Party of China and the State Council on the Revitalization Strategies for Historical Industrial Bases of the Northeast Regions (《中共中央、國務院關於實施東北地區等老工業基地振興戰略的若干意見》), the Company will continue to enjoy the relevant favorable policies in supporting such revitalization for historical industrial bases of the northeast regions.

In the first half of 2020, the Company actively promoted the development of new products and new industries, completed trial production and no-load testing of the first wheel hub motor prototype and completed the manufacture of the first prototype of the heavy-duty mining truck electric wheel; the first 50-trillion distributed compensator passed the model test; completed the manufacture of Hualong No.1 vertical MSR pilot safety valve; completed the manufacture of seven hairpin oil and gas heat exchangers under the national demonstration project of salt cave compressed air energy storage; and successfully completed the grid connection of steam turbine generator set of 80MW biomass electricity and heat cogeneration project with the largest unit capacity in the world for one time; put into operation Baihetan Hydropower Station, the world's first 1,000,000 kW hydropower unit designed and manufactured by the Company, for which a congratulatory letter was issued by Xi Jinping, the General Secretary of the Central Committee of the Communist Party of China, the PRC President and the Chairman of the Central Military Commission, and instruction was given by Li Keqiang, Member of the Standing Committee of the Political Bureau of the Communist Party of China (CPC) Central Committee and Premier of the State Council.

As at 30 June 2021, at the Company has a total of 12,063 employees, and the total remuneration amounted to RMB743.66 million.

In order to motivate key employees, the Company formulated the share appreciation rights incentive plan. On 29 January 2021, the share appreciation rights incentive plan and scheme were approved by the general meeting of the Company. On the same date, the Board announced that the conditions for granting the share appreciation rights incentive plan and scheme were satisfied, and formally granted 48.32 million share appreciation rights to 281 incentive targets.

In the first half of 2021, there was no significant change in the Company's remuneration policy. The Company currently has no stock option scheme in place.

In the first half of 2021, the Company organized 442 classes in total for training and trained 21,125 persons.

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2021.

According to the forecast of China Electricity Council (CEC), in 2021 the new installed power generation capacity of national infrastructure will be around 180 million kilowatts, of which about 140 million kilowatts for installed capacity of non-fossil energy power generation will be put into operation. By the end of the year, the installed capacity of the country will reach 2.37 billion kilowatts, up by 7.7% over the same period last year. In particular, the installed power generation capacity of coal-fired power will be 1.1 billion kilowatts, hydropower 390 million kilowatts, grid-connected wind energy 330 million kilowatts, grid-connected solar power 310 million kilowatts, nuclear power 54.41 million kilowatts, biomass power generation approximately 35 million kilowatts. The installed capacity of non-fossil energy generating power will reach 1.12 billion kilowatts, and the proportion of total installed capacity will rise to 47.3%, representing an increase of 2.5 percentage points over the end of 2020. The installed scale and proportion of non-fossil energy generating power are expected to exceed that of coal-fired power for the first time.

In the second half of 2021, the Company will continue to adhere to the transformation and development as the main line, as well as completely, accurately and comprehensively implement the new development concept with the highlight in innovation driven and capital driven, while paying close attention to implementation, strengthening technological innovation, grasping capital operation, striving to seize

As at 30 June 2021, the Company had adopted the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 of the Listing Rules as its code of conduct for securities transactions by Directors. The Company, having made enquiry to the Directors, confirms that all Directors have complied with the provisions of the Model Code for Securities Transactions by Directors of Listed Issuers throughout the period.

As at 30 June 2021, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

As at 30 June 2021, the guarantees provided by the Company to its subsidiaries and the guarantees between subsidiaries of the Company amounted to RMB2,185.11 million in aggregate. There was no external guarantee of the Company.

As at 30 June 2021, the Company pledged its assets of RMB96.61 million (as at 30 June 2020: RMB100.51 million) to secure loans for liquidity.

The Company is currently and had been at all times during the accounting period in compliance with the rules set out in the Corporate Governance Code and Corporate Governance Report contained in Appendix 14 of the Listing Rules, and, where appropriate, has adopted the recommended best practices as specified therein.

The Audit Committee has reviewed and approved the interim report of the Company for the six months ended 30 June 2021. The members of Audit Committee of the Company include Tang Zhi-hong, He Yu, Hu Jian-min, Chen Guo-qing.

Dahua Certified Public Accountants LLP, the Company's auditor, has carried out a review of the unaudited interim report for the six months ended 30 June 2021 in accordance with the requirements of "China Certified Public Accountant Review Standard No. 2101 – Review of Financial Statement".

On 29 January 2021, the Company held special general meeting of shareholders in Harbin, the PRC. The results of relevant meetings had been published on the websites of the Hong Kong Stock Exchange and the Company.

On 26 May 2021, the 2020 annual general meeting of the Company was held in Harbin, the PRC, and H Share class meeting and Domestic shares class meeting were held thereafter. The results of relevant meetings had been published on the websites of the Hong Kong Stock Exchange and the Company.

As at 30 June 2021, the Company did not have any information which was required to be disclosed pursuant to Rules 40.3(a) to (i) under Appendix 16 of the Listing Rules.

The Articles of Association of the Company and the original copies of the interim report and the reviewed financial statements for the six months ended 30 June 2021 are available for inspection at the head office of the Company at 1399 Chuangxinyi Road, Songbei District, Harbin, the PRC.

By Order of the Board

*Company Secretary*

Harbin, PRC, 27 August 2021

*As at the date of this announcement, the executive Directors of the Company are Mr. Si Ze-fu, Mr. Wu Wei-zhang and d Mr. Sun Zhi-yong; and the independent non-executive Directors of the Company are Mr. He Yu, Mr. Hu Jian-min, Mr. Chen Guo-qing and Mr. Tang Zhi-hong.*
