NOTES

1. GENERAL INFORMATION

The Company was established as a joint stock company in the People's Republic of China (the "PRC") and its H shares are listed on The Stock Exchange of Hong Kong Limited. Its parent and ultimate parent company is Harbin Electric Corporation ("HE"), a state-owned enterprise established in the PRC. HE has not produced financial statements available for public use.

The consolidated financial statements are presented in Renminbi ("RMB"), rounded to the nearest thousand unless otherwise indicated. RMB is the Company's functional and presentation currency.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 4 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

3. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The consolidated financial statements for the year ended 31 December 2011 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates.

The measurement basis used in the preparation of the financial statements is the historical cost basis except that the following assets and liabilities are stated at their fair value:

- financial instruments classified as trading securities, and
- derivative financial instruments.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

4. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) AND MERGER ACCOUNTING FOR COMMON CONTROL COMBINATION

New and revised HKFRSs

The Group has adopted the following new and revised Standards, Amendments and Interpretations (“new and revised HKFRSs”) that are first effective for the current accounting period.

Amendments to HKFRSs	Improvements to HKFRSs issued in 2010
HKAS 24 (as revised in 2009)	Related Party Disclosures ^(#)
Amendments to HKAS 32	Classification of Rights Issues
Amendments to HK(IFRIC)-Int 14	Prepayments of a Minimum Funding Requirement
HK(IFRIC)-Int 19	Extinguishing Financial Liabilities with Equity Instruments

^(#) The Group had early applied the partial exemption from the disclosure requirements for government-related entities for its annual consolidated financial statements for the year ended 31 December 2010.

The application of these new and revised HKFRSs in the current year has had no material effect on the amounts reported in these consolidated financial statements and/or disclosures set out in these consolidated financial statements.

Merger accounting for common control combination

In May 2011, the Group acquired 55.64% of the equity interest of 哈爾濱電機廠(昆明)有限公司 (“Kunming Generator”) by way of capital contribution of RMB250,000,000 (the “Capital Contribution”) to Kunming Generator. Kunming Generator is a company incorporated in the PRC and principally engaged in the business of manufacturing of small-scale hydro power equipment. Before the Capital Contribution, the Group’s ultimate parent company, HE, had previously obtained a controlling equity interest of 78% on Kunming Generator in 2010.

The Group’s acquisition is considered as business combination involving entities under common control and has been accounted for using merger accounting method, based on the Accounting Guideline 5 “Merger Accounting for Common Control Combinations” issued by the HKICPA for the year ended 31 December 2011. Under the principles of merger accounting, the consolidated financial statements have been prepared as if Kunming Generator and its subsidiaries have been subsidiaries of the Group for the year ended 31 December 2010. As a result, the comparative consolidated income statement, consolidated statement of comprehensive income and consolidated statement of cash flows for the year ended 31 December 2010 and consolidated statement of financial position as at 31 December 2010 have therefore been restated, in order to include the results of the combining entities since the date of which first come under common control.

8. INCOME TAX IN THE CONSOLIDATED INCOME STATEMENT

(a) Taxation in the consolidated income statement represents:

	2011 RMB'000	2010 '000 (restated)
Current tax		
PRC enterprise income tax		
— provision for the year	370,078	362,131
— (over)-provision in respect of prior years	(45,607)	(28,934)
	<u>324,471</u>	<u>333,197</u>
Deferred tax		
Origination and reversal of temporary differences	(67,785)	(64,247)
	<u>256,686</u>	<u>268,950</u>

On 21 November 2008, the Company was named as one of the High and New Technology Enterprise (高新技術企業). According to the PRC Law on Enterprise Income Tax promulgated on 16 March 2007, the Company is entitled to a concessionary rate of enterprise income tax at 15% over 3 years, beginning on 17 November 2011.

Except for certain subsidiaries which are subject to an enterprise income tax rate of 15%, other subsidiaries located in the PRC are subject to the PRC enterprise income tax at a rate of 25% (2010: 25%) on its assessable profits.

- (b) According to Circular Guoshuihan [2008] No. 897 “Notice on the issue about withholding Enterprise Income Tax on the dividends paid by Chinese resident enterprises to overseas non-resident enterprises H-share holders” issued by State Administration of Taxation on 6 November 2008, where a Chinese resident enterprise pays dividends for the year of 2008 or any year thereafter to its H-share holders which are overseas non-resident enterprises, it shall withhold the enterprise income tax on the basis of 10% of the dividends. In accordance with this circular, the Company would withhold the enterprise income tax with tax rate of 10% when it pays dividends for the year of 2008 or any year thereafter to its overseas non-resident enterprise H-shares holders.

9. EARNINGS PER SHARE

(a) Basic earnings per share

The calculation of the basic earnings per share is based on the profit attributable to ordinary equity shareholders of the Company of approximately RMB1,228,661,000 (2010 (restated): RMB1,001,108,000) and on the weighted average number of ordinary shares of 1,376,806,000 (2010: 1,376,806,000) in issue during the year.

(b) Diluted earnings per share

There were no dilutive potential ordinary shares in issue during the years ended 31 December 2011 and 2010, and diluted earnings per share is the same as basic earnings per share.

10. SEGMENT REPORTING

The Group manages its businesses by divisions, which are organised by business lines (products and services). In a manner consistent with the way in which information is reported internally to the directors of the Company, the Group's chief operating decision maker, for the purposes of resource allocation and performance assessment, the Group has presented the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

- Main thermal power equipment — manufacturing of main thermal power equipment.
- Main hydro power equipment — manufacturing of main hydro power equipment.
- Engineering services — provision of engineering services for power stations.
- Ancillary equipment — manufacturing of ancillary equipment for power stations.
- AC/DC motors and others — manufacturing of AC/DC motor and others.

(a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's directors monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets with the exception of interests in associates, other non-current financial assets, trading securities, derivative financial instruments, deferred tax assets and other corporate assets. Segment liabilities include trade payables, other payables, accruals and provisions, deposits received and amounts due to customers for contract work attributable to the manufacturing and sales activities of the individual segments and borrowings managed directly by the segments, with the exception of income tax payable.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

The measure used for reporting segment profit is "adjusted operating profit/(loss)". To arrive at "adjusted operating profit/(loss)", the Group's profit/(loss) are further adjusted for items not specifically attributed to individual segments, such as share of profits less losses of associates, interest income, directors' and auditors' remuneration, expected loss, finance costs and other head office or corporate administration costs. Taxation charge is not allocated to reporting segments. Inter-segment sales are priced with reference to prices charged to external parties for similar orders.

Information regarding the Group's reportable segments as provided to the Group's directors for the purposes of resource allocation and assessment of segment performance for the years ended 31 December 2011 and 2010 is set out below.

Certain comparative figures have been adjusted to conform to current year's presentation.

MANAGEMENT DISCUSSION AND ANALYSIS

MACRO ECONOMY AND INDUSTRY DEVELOPMENT

In 2011, the European debt crisis has been worsening and spreading around. Developed countries saw a feeble recovery and emerging economies a slowdown in growth. The PRC government insisted upon its course of austerity measures, stable economic growth, price control and structural adjustment to ensure a stable and faster economic development, culminating a 9.2% GDP growth.

China has stepped up its efforts to adjust the energy structure by lowering the proportion of thermal power and increasing that of clean energy such as hydropower, wind power and solar power. In light of the incident in Fukujima, the pace for the development of nuclear power was slowed down. Growing demand from abroad has made up for the lack of domestic demand.

In 2011, power consumption across China grew at 11.74% over the previous year. Installed capacity of the power generating units nation-wide has reached 1,055,760MW by the end of the year, representing a growth of 9.25% over the previous year.

NEW CONTRACTS

In 2011, at the backdrop of the complicated economic development and highly competitive environment, the Group rose up against all odds and won RMB44.611 billion worth new contracts, of which RMB23.546 billion (or 52.78% of total contract value) for thermal power equipment, RMB3.24 billion (or 7.26% of total contract value) for hydropower equipment, RMB3.358 billion (or 7.53% of total contract value) for hybrid equipment, RMB7.676 billion (or 17.21% of total contract value) for power engineering, RMB0.717 billion (or 1.61% of total contract value) for nuclear power equipment and RMB6.074 billion (or 13.61% of total contract value) for other products.

Leveraging on its strong competitiveness in the thermal power equipment market, the Group signed a new contract for installing 4 units of 1,100MW ultra supercritical boilers in Xinjiang.

Our competitive edge in hydropower equipment has further strengthened. The Group has signed contracts for 6 units of 250MW pumped-storage hydroelectric power generators in Liyang, Jiangsu and 4 units of 425MW water turbine power generators in Houziyan.

The Group commands a leading position in the hybrid equipment market and has introduced model 9FB03 and model 6FA into the domestic market of China.

The wind power equipment segment has succeeded in opening up the domestic market and won 4 contracts for wind farm projects.

The nuclear power equipment segment has signed a supply contract of conventional island for the power generating units 3 and 4 of Tianwan Nuclear Power Plant.

In 2011, the Group recorded a turnover of export of RMB5,975.31 million, representing an increase of RMB675.82 million over the previous year and accounted for 20.97% of the turnover of the principal business activities. The export was mainly to such regions as Asia and Africa.

COST

In 2011, the cost of the principal business activities of the Group was RMB22,777.15 million, a decrease of 8.83% over the previous year. The decrease was mainly due to the Group's effort in cost control paid off.

GROSS PROFIT AND GROSS PROFIT MARGIN

In 2011, the gross profit from the principal business activities of the Group was RMB5,710.63 million, an increase of 36.30% over the previous year. The gross profit margin was 20.05%, an increase of 5.69 percentage points over the previous year. Among them the gross profit from thermal power main equipment was RMB3,842.95 million, an increase of RMB1,308.66 million over the previous year. The gross profit margin for thermal power main equipment was 22.22%, an increase of 8.13 percentage points over the previous year. The gross profit from hydropower main equipment was RMB958.99 million, an increase of RMB339.86 million over the previous year. The gross profit margin for hydropower main equipment was 30.32%, an increase of 6.51 percentage points over the previous year. The gross profit from power plant engineering services was RMB278.32 million, an increase of RMB107.84 million over the previous year. The gross profit margin for power plant engineering services was 5.45%, an increase of 2.08 percentage points over the previous year. The gross profit from ancillary equipment for power stations was RMB286.50 million, a decrease of RMB21.06 million over the previous year. The gross profit margin for ancillary equipment for power stations was 39.84%, an increase of 6.37 percentage points over the previous year. The gross profit from the AC/DC motors and other products and services was RMB343.87 million, a decrease of RMB214.47 million over the previous year. The gross profit margin for the AC/DC motors and other products and services was 15.59%, a decrease of 5.81 percentage points over the previous year.

EXPENSES DURING THE PERIOD

The Group's expenses for operation activities during 2011 amounted to RMB558.04 million, an increase of RMB49.25 million or 9.68% over the previous year.

Expenses for administration activities during 2011 amounted to RMB3,040.18 million, an increase of RMB285.30 million or 10.36% over the previous year.

The increase in expenses during the period was mainly due to the increase in staff costs, sales services expenses, depreciation charges and R&D expenses.

INTEREST EXPENSE

In 2011, the Group has incurred financial charges of RMB72.55 million, a decrease of RMB66.99 million over the previous year.

FUNDING AND BORROWINGS

The Group has three major funding sources for operation and development, namely shareholder's funds, trade receivables from customers and bank borrowings. The Group arranges borrowings for each specific project. Except for some special situations, loans will be raised individually by the Group's subsidiaries. However, prior approval from the parent company is required in respect of borrowings raised for capital investments. As the number of orders and advance receipts increased significantly during the past two years, the Group had abundant working capital and has thus repaid substantially all of the loans for working capital. As at 31 December 2011, the total sum of the Group's borrowings was RMB1,895.86 million (31 December 2010: RMB2,209.96 million). The Group's bank borrowings are loans from various commercial banks and the State's policy banks with interest rates stipulated by the state. Among the Group's borrowings, the amount due within one year was RMB581.62 million, a decrease of RMB45.38 million compared to the beginning of the year. The amount of the Group's borrowings due after one year was RMB1,314.24 million, a decrease of RMB268.72 million compared to the beginning of the year.

DEPOSITS AND CASH FLOW

As at 31 December 2011, bank deposits and cash of the Group amounted to RMB8,519.28 million, a decrease of RMB4,030.90 million compared to the beginning of the year. During the period, net cash outflow from operating activities of the Group amounted to RMB2,273.66 million. Net cash outflow from investment activities amounted to RMB672.11 million and net cash outflow from financing activities was RMB241.67 million.

ASSET STRUCTURE AND ITS MOVEMENTS

As at 31 December 2011, total assets of the Group amounted to RMB50,396.05 million, a decrease of RMB360.06 million (or 0.71%) compared to the beginning of the year, among which current assets were RMB42,739.58 million, representing 84.81% of the total assets, and non-current assets were RMB7,656.47 million, representing 15.19% of the total assets.

LIABILITIES

As at 31 December 2011, the Group's total liabilities amounted to RMB37,872.82 million, a decrease of RMB1,719.45 million compared to the beginning of the year, among which total current liabilities were RMB29,022.65 million, representing 76.63% of the total liabilities, and total non-current liabilities were RMB8,850.17 million, representing 23.37% of the total liabilities. As at 31 December 2011, the gearing ratio of the Group was 75.15%.

SHAREHOLDERS' EQUITY

As at 31 December 2011, the total equity attributable to the shareholders of the Company amounted to RMB10,601.62 million, an increase of RMB900.17 million compared to the beginning of the year; the net asset per share was RMB7.70. During the period, the net asset return rate of the Group was 12.1%.

GEARING RATIO

As at 31 December 2011, gearing ratio of the Group (non-current liabilities over total shareholders' equity) was 0.83:1 as compared to that of 1.05:1 at the beginning of the year.

CONTINGENT LIABILITIES AND PLEDGE OF ASSET

As at 31 December 2011, the Group pledged its bank deposits in the amount of RMB131.16 million to secure loans for liquidity.

CAPITAL EXPENDITURES AND MAJOR INVESTMENTS

In 2011, the Group has a total capital expenditure of RMB1,530 million invested in infrastructure constructions and technological upgrades. The particulars of the investments and construction projects are as follows:

The technological upgrade projects for 1,000MW nuclear power ancillary equipment and the newly-built hydropower model laboratory were completed during the year;

The improvement project for domestic nuclear production at conventional islands, the manufacturing and construction project of the main equipment for nuclear island, the self-reliance and improvement project of the main equipment for nuclear island, the construction project of manufacturing base for main pump generators, the manufacturing technology upgrade project for nuclear power reactor-cooling agent pump units as well as the technological upgrade projects for coal chemicals, IGCC and large-scale chemical engineering equipment have reached their final stages;

As regards Phase I of the scientific research base, the technological upgrade project for mass production of 30MW fuel gas compressor units as well as the construction projects for boiler laboratory, technological laboratory and material laboratory have been carried out as scheduled.

In 2012, the Group intends to commit an investment of RMB992 million, which will be mainly used for Phase I of the scientific research base and the technological upgrade project for mass production of 30MW fuel gas compressor units.

On 11 May 2011, the Group subscribed for 200 million A shares of Datang International Power Generation Co., Ltd. under private offering at a price of RMB6.74 per share, totaling RMB1,348 million. The shares were subject to a locked-up period of one year.

As at 31 December 2011, the shareholdings by the Company were as follows:

200 million A shares of Datang International Power Generation Co., Ltd., with a locked-up period of one year;

160 million A shares of GD Power Development Co., Ltd.;

98 million A shares of Huaneng Power International, Inc..

The Group will focus on accomplishing the following tasks in 2012:

Enhancing customer satisfaction and developing markets with full strength

Under the concept of “total marketing”, all our efforts are directed to market development. We strive for higher customer satisfaction by providing meticulous design, production and services, actively responding to their demands for energy saving, reduction of wastage and higher efficiency, and meeting their requirements for performance, quality assurance, construction progress and efficient services. Besides, to provide powerful support for market development, we integrate and re-allocate our marketing resources to maximize the Group’s overall strength.

We will consolidate our presence in the conventional market by gaining a bigger share in the thermal power market, maintaining our competitiveness in the hydropower market and developing the nuclear power market with full strength. We will also continue to develop the markets for combustion engines and environment-friendly products as well as such new products as IGCC, compressors, photovoltaic power generation, wind power, seawater desalination, etc.. Driven by the exportation of EPC projects and main equipment as well as the provision of up-to-date services for the manufacturing sectors, we have taken a big step in exploring the overseas markets and the service markets.

Tightening cost control and enhancing operating efficiency

We will tighten cost control to actively cope with the complex economic environment. By promoting the “total cost” model, we manage and control by allocating the costs to the design, procurement, production and sales segments.

We will perform strict budget management to step up control on cash flows. Measures adopted include timely recovery of receivables, reduction of unnecessary expenses, squeeze on overhead, further reduction of inventory, and optimal utilization of funds by tapping new resources while reducing expenditure.

Capitalizing on the benefits of tendering process, we will lower procurement cost by expanding the scope of procurement. We will also fully utilize in-house capacity to reduce the amount of outsourcing operations and cut down on outsourcing prices to contain the expenditure on outsourcing.

Speeding up technology innovation and pushing through structure adjustment

Bearing market demand and national policies in mind, we will continue on our course of technology advancement and product upgrading. To sharpen our competitive edge in terms of technology, we will step up our efforts in self-initiated innovation along with the absorption of transferred technology. To provide technical support for product improvement and upgrading, we will meticulously work on the performance and projects of high capacity thermal power and hydropower generating units. To enhance our own capabilities in designing and manufacturing nuclear power products, we will conduct in-depth research into the design and manufacture of the AP1000 nuclear power equipment. To ensure smooth execution of contracts in hand, we will work on the technology transfer for 9FB gas turbine.

Leveraging on technology innovation, we will speed up the process of adjusting the industry structure and incubate budding businesses so as to set up new growth points. To lay a foundation for the Group's long term development, we will achieve breakthroughs in the research of such new segments as coal chemicals, seawater desalination, photovoltaic power generation and compressors.

For the purpose of expanding our nuclear power segment, the Group is setting up its own design institute for nuclear power equipment to build up its capabilities in the design and supply of nuclear power turnkey projects and complete the industry chain.

We will accelerate the construction of a manufacturing base for compressors. Taking advantage of the contracted projects, construction and production will be effected simultaneously to expedite the prototyping process.

We will also accelerate the construction of a wind farm in Zhenjiang with particular attention being paid to technology transfer and absorption, installation and fine-tuning of equipment, and pre-commissioning preparations.

Enhancing management and developing fundamentals in a pragmatic way

The Group has marked 2012 as its "Management Enhancement Year". Quality of workflow and products is placed high on the priority list to attain a higher degree of efficiency and economic benefits.

Under the comprehensive quality enhancement directive, performance will be assured by technology advancements, product quality by effective system and service quality by efficiency and integrity.

We will closely monitor the inherent risks and actual progress of the projects so as to effect timely adjustment to our implementation strategies and ensure contracts will be honoured. Under the principle of total control and high precision, the Group will further deepen its development of human resources by expanding its workforce, strengthening personnel training, supervision and assessment as well as optimizing its execution capabilities.

Under the principle of necessary prudence and tight control, the Group will conduct systematic reviews and examinations as well as post-assessments on the infrastructure and investment projects underway.

The Group will make greater contribution to the society in terms of conservation of energy and reduction of emission by applying the same principle to itself in environmental protection, cost-saving and effectiveness enhancement.

DIVIDEND

A dividend of RMB0.14 per share (appropriate tax included) for 2011 (2010: RMB0.14 per share) was proposed by the board of directors, which remained unchanged as last year.

Dividends payable to shareholders of H share will be paid in Hong Kong dollar at the average of the exchange rates quoted by the People's Bank of China for the five days preceding 17 March 2012, which is RMB1 for HK\$1.2259. The dividend for every H share will be HK\$0.1716.

CLOSURE OF REGISTER

The Register of members of the Company will be closed from 23 May 2012 to 25 May 2012 (both dates inclusive). Final dividend for 2011 will be distributed by 13th July, 2012 to shareholders whose names appear in the Register of members of the Company on 23 May 2012.
